

MOSTAFA HASSAN EL-SONBATY

BUSINESS & DATA ANALYST

Mokkatam, Cairo Governorate, Egypt | mostafa.hassan.mostafa.604@gmail.com | 01119683148 | [LinkedIn](#) | [GitHub](#)

Data & Business Analyst with practical experience bridging IT support and data visualization across the banking and petroleum sectors. Equipped with a strong technical foundation in SQL, Python, and Power BI dashboarding, enabling the creation of impactful KPI reports. Seeking a Junior Analyst position to transform data into strategic decisions and drive operational efficiency.

EDUCATION

Capital University (Helwan University) – Faculty of Commerce & Business Administration **Sep 2023 to Jun 2027**
Student in Business Information Systems (BIS)

Expected Graduation: June 2027 | Current Year: 4th Year

COURSES & CERTIFICATIONS

Intermediate SQL **Feb 2026**
DataCamp, Online

Expanded SQL skills with joins, subqueries, aggregation, grouping, and filtering.
Practiced using aggregate functions, sorting, and clauses to analyze datasets.
Gained experience preparing datasets to answer real-world business questions and extract insights.

Introduction to SQL **Feb 2026**
DataCamp, Online

Learned SQL fundamentals, relational database structure, and query writing.
Covered statements, filtering, sorting, aliasing, views, and differences between SQL flavors (PostgreSQL & SQL Server).
Applied concepts through hands-on exercises to retrieve and organize data for analysis.

INTERNSHIPS & EXPERIENCE

Back-end Development Member, Code to Commerce (C2C) **Nov 2025 to Jun 2026**

- Developing back-end development skills through hands-on training and collaborative projects within the faculty's technical student activity.
- Building foundational knowledge in server-side programming, APIs, and database interaction as part of a structured learning track.
- Collaborating with peers on real-world-style tasks to strengthen problem-solving and technical execution skills.

IT Intern, PetroShahd Petroleum **Sep 2025**

- Provided first-line technical support by diagnosing and resolving hardware and software issues, improving end-user experience.
- Assisted with system maintenance tasks, asset inventory and basic network checks to support IT operations.
- Documented troubleshooting steps and created user-facing guides to streamline future support and onboarding.

Public Relations Intern, PetroGulf Misr **Aug 2025**

- Drafted internal and external communications, including press notes and stakeholder updates, ensuring consistent corporate messaging.
- Monitored media coverage and compiled weekly reports summarizing key mentions and sentiment for the PR team.
- Coordinated stakeholder outreach and supported event logistics, improving engagement workflows and communication effectiveness.

Business Planning & Analysis Intern, ADIB Egypt

Jul 2025

- Collected, cleaned, and validated data to support monthly KPI reporting and financial planning processes.
- Built Excel-based dashboards (Pivot-tables, Power Query) and Power BI visualizations to highlight trends and KPIs for managers.
- Automated routine reporting tasks and prepared reports used to inform operational and strategic decisions.

IT Intern, PetroGulf Misr

Jul 2024

- Supported IT operations by assisting with troubleshooting hardware and software incidents and creating user support documentation.
- Observed system administration tasks and contributed to maintenance activities, including backups and asset inventory.
- Collaborated with the IT team to improve documentation and onboarding processes for new users.

E-Learning Committee Member, Spread Your Skills (SYS)

Nov 2023 to Mar 2024

- Organized and promoted digital learning sessions, coordinating schedules and participant communications.
- Designed training materials and slide decks using PowerPoint to support peer learning.
- Facilitated sessions and gathered participant feedback to improve future workshops.

ACADEMIC & TECHNICAL PROJECTS

Rock, Paper, Scissors Game – Python

Built a command-line Rock–Paper–Scissors game in Python using the random module; implemented input validation, game-loop logic and score tracking to reinforce core programming concepts (loops, conditionals, I/O).

WhatsApp GUI Clone – Python & Tkinter

Built a desktop chat interface in Python using Tkinter and PIL with contact management, message-sending simulation, and modular GUI components; practiced event-driven programming, image handling, and state management.

Corono Ice Cream – Marketing Strategy Project

Designed a go-to-market strategy for a new ice cream line under the Corona Egypt brand: conducted market research and competitive analysis, defined target segments and positioning, developed pricing and multi-channel promotional plans (digital and in-store), and recommended KPIs to measure campaign performance.
